Long Beach Marinas
Alamitos Bay Marina, Long Beach Shoreline Marina, and Rainbow Harbor Marina

From the Manager

Hoping everyone is enjoying their summer. This month's letter is the least exciting message for the year and the annual communication I'd rather skip.

As the summer comes to an end, so does the City's fiscal year. In the next few weeks, City Council will hold budget hearings. Included in those hearings are fee increases which reflect the City Cost Index (CCI), a formula designed to ensure that all user fees reflect full cost recovery. The CCI for all FY19 user fees is 3.73%. However, Marina Management requested and was granted an exception. Instead of the 3.73% mandated increase, slip fees will increase by 2%.

Slip fees account for 90% of the total Marina Fund revenues, as of August 13, 2018, slip fee revenue is \$19,929,442 representing a 7% increase from the same time last year. This number is expected to continue to increase in FY19, as slips which became available for rent in April are leased to new tenants.

As you may recall, the sale of the Marina Revenue Bonds required that the City maintain a ratio of revenue/expenditures of 1.25 times the debt service coverage. Meaning an annual rate increase of a minimum of 2% a year. The projected debt service coverage at the end of FY18 is anticipated at 1.30x. This is good news!

This increase will be reflected on your October statement, along with the incremental security deposit increase.

Until next time,
Elvira Halinan
Manager, Marinas and Beaches

Run For Cover Long Beach Marathon News

On Sunday, October 7th, an estimated 26,000 runners, bikers, and walkers will be touring our city in the 29th annual Long Beach Marathon. This is a large event with great impact to our residents and visitors so please plan ahead, especially boaters in the Long Beach Shoreline Marina. For additional marathon information you can visit www.runlongbeach.com.

Starting in Downtown Long Beach, runners head towards the historic Queen Mary and through Shoreline Village.

* On Saturday, October 6th, from 8:00 AM until 6:00 PM on Sunday, October 7th, Shoreline Drive, from Ocean to Linden, will be closed and the ONLY access into and out of the LBSM will be from Pine Ave. to Shoreline Drive to Shoreline Village Drive.

* On Sunday, October 7th from 3:00 AM until noon vehicle ingress and egress to the LBSM will be prohibited. If you need to use your vehicle to leave the marina between these hours, you will need to park in the Convention Center lot (by Linden). Make sure your LBSM parking pass is visible. You will be permitted to cross the course at any time during the event.

* On Saturday, October 6th, from 9:00 AM to noon there will be a Kids Fun Run near the Aquarium of the Pacific.

Event Schedule:

Friday: Oct. 5

Noon-6 PM Free Health and Fitness Expo, Long Beach Convention Center

Saturday: Oct. 6

7:00 AM Aquarium of the Pacific 5k

9:00 AM- 1-Mile Kids Fun Run, Aquarium of the Pacific

10:00 AM-4 PM Free Health and Fitness Expo, Long Beach Convention Center

*Shoreline Drive closed from 8:00AM-6:00PM

Sunday, Oct. 7

6:00 AM Marathon, 20 Mile Bike Tour

7:30 AM Half Marathon, E. Shoreline Drive

Marina Green is the designated Finish Line and Festival location. *3:00AM-noon, vehicle ingress and egress to LBSM PROHIBITED

If you have any questions, comments, or concerns contact Kimarie Vestre at (562) 570-3236 or via email at Kimarie.Vestre@longbeach.gov.

5k runners are greeted by Aquarium staff as they run through the Aquarium of the Pacific in the final leg to the finish line.

Join The State's Largest Volunteer Event, Take One Hour To Pick Up Trash And Litter California Coastal Cleanup Day

WHAT IS COASTAL CLEANUP DAY?

Every year, on the third Saturday in September, people join together at sites all over California to take part in the State's largest volunteer event, California Coastal Cleanup Day. In 2017, nearly 67,000 volunteers removed more than 830,000 pounds of trash and recyclables from California's beaches, lakes, and waterways. Families, friends, coworkers, scout troops, school groups, service clubs, and individuals come together to celebrate and share their appreciation of California's fabulous coast and waterways. The event is part of the International Coastal Cleanup, organized by the Ocean Conservancy, which is the largest volunteer event on the planet!

WHY ARE BEACH CLEANUPS IMPORTANT?

Vast amounts of plastic debris litter the world's oceans causing all manner of harm, and most of this debris comes from land. Our beaches are collecting spots for trash from city streets and highways. Trash travels - via inland waterways, storm drains, sewers, and on the wind, and eventually ends up on the coast. If not removed, this debris will end up in the ocean. Beach cleanups are a last line of defense - to prevent debris from causing harm to our oceans, to wildlife, to our coastal economies, and even to beach-goers (ouch!).

WHAT IS MARINE DEBRIS?

Marine debris is defined as "any manufactured or processed solid waste material that enters the marine environment from any source." Debris is everywhere—found around every major body of water on the planet, and below water as well. Marine debris is a global pollution problem that impacts human health and safety, endangers wildlife and aquatic habitats, and costs local and national economies millions in wasted resources and lost revenues.

Only 20% of the items found in the ocean can be linked to ocean-based sources, like commercial fishing vessels, cargo ships (discharge of containers and garbage), or pleasure cruise ships. The remainder (80%) is due to land-based sources, like litter (from pedestrians, motorists, beach visitors), industrial discharges (in the form of plastic pellets and powders), and garbage management (ill-fitting trash can lids, etc). trashing California's Beaches

A 2001 study found an average of 334,271 pieces of plastic per square mile in the North Pacific Central Gyre, which serves as a natural eddy system to concentrate material. A 2009 voyage to that same region found plastic particles in over 100 consecutive surface tows over approximately 8 days of sampling. And debris in the marine environment means hazards for animals and humans. Marine debris

affects at least 663 species worldwide, including all known sea turtle species and about half of all of marine mammal species. More than 80% of these impacts were associated with plastic debris.

2018 COASTAL CLEANUP DAY IN LONG BEACH

The El Dorado Nature Center is partnering with the California Coastal Commission to coordinate five cleanup sites in Long Beach. Joining the Nature Center as site captains are the Aquarium of the Pacific, the Seal Beach Yacht Club, the Long Beach Marine Institute, and Clean LB.

Participating is easy - all you have to do is show up at any of our sites and sign in! We provide all of the supplies you need.

Saturday, September 15 2018, from 9 AM – noon at any of the following locations.

- Alamitos Bay Marina (255 N. Marina Drive.)
- Belmont Pier (End of Termino Ave. at Ocean Blvd.)
- Sea Scout Base (near Mother's Beach 5875 Apian Way)
- Cherry Beach (End of Junipero Ave. at Ocean Blvd.)
- Peninsula (End of 72nd Place. at Ocean Blvd.)

All participants must sign a liability waiver form. Waivers will be available at each site or you can download and bring one with you. 2018 Waiver Form <https://www.coastal.ca.gov/publiced/ccd/waiver.pdf>

Join us and help keep our Long Beach coastline clean and beautiful!

USCG Approved Captain's License Course

Advanced Maritime Education at SmartCaptains.com offers U.S. Coast Guard approved OUPV "6-Pack" 3-Weekend Captain's License course and exams in Long Beach.

The OUPV license allows you to carry a maximum of six paying passengers (abbreviated as "pax" in the ship's log), hence the popular term "6-pack" license.

This license is for operating uninspected, recreational-type vessels up to 100 gross tons capacity. These are vessels that are not specifically designed, approved nor built for commercial service. Examples would be recreational power boats and most auxiliary sail boats.

Topics presented are based on the four-part USCG exam. We incorporate our instructors' and students' shared maritime experience and insight in our courses. If you are looking for a dynamic, upbeat path to your USCG Captain's License, or if you haven't sat in a classroom in many years, this is the school for you!

Boat owners from our Marinas have qualified for the USCG license in every class so what are you waiting for? The next 3 weekend class begins Friday, September 14. The cost for this course is \$695. For more information, visit: www.SmartCaptains.com or call (415) 798-7544.

So Long Summer, A Tribute To The American Worker

Labor Day, the first Monday in September, is traditionally looked upon as the "End of Summer," although the summer weather in Southern California lingers on. Labor Day is actually a creation of the labor movement and is dedicated to the social and economic achievements of American workers. On June 28, 1884, Congress passed an act making the first Monday in September of each year a legal holiday throughout the country. Labor Day constitutes a yearly national tribute to the contributions workers have made to the strength, prosperity, and well being of our country. It is appropriate, therefore, that the nation pay tribute on Labor Day to the American worker.

The first song at the very first Labor Day parade was "When I Put This Uniform On" from Patience, an opera by Gilbert and Sullivan. The piece was played by the band of the Jewelers Union of Newark Two.

Post Labor Day festivities at the first Labor Day parade march included speeches, picnics and an abundance of cigars and "Lager beer kegs...mounted in every conceivable place."

We hope you will be enjoying the waters this Labor Day, and please remember to always practice safe and responsible boating.
